

School Council 2019/20

Manifesto

The changes to our environment are issues that affect us all. It's up to everyone to do as much as they can to help the environment. Our aim for this year is to begin to make positive changes to our local environment.

Our Initiatives

Let's use reusable water bottles:

We are going to be introducing the use of reusable water bottles. Not only are they stylish, but they will also make a positive difference to our environment.

Let's use recycling bins:

Throughout this year we aim to promote the use of recycling bins across school, so we can reduce the need for new materials.

Let's reduce food waste:

We would like to reduce the food that we waste in Longmoor, especially at lunch time. Year groups will be competing against each other to win a prize for the least food wasted.

Let's use cleaner travel to school:

If you usually drive to school, you could use public transport or if you live close enough, why not walk. As well as being better for the environment, it is a great way of getting exercise.

We hope that **YOU** will be able to support us with these ideas to help protect our local environment. We want the people of the future to have the opportunity to enjoy our local area too.
